Professional Summary

Software Engineering graduate with practical experience in web development, networking, technical troubleshooting, and software development. Skilled in building responsive web applications using HTML, CSS, JavaScript, PHP, MySQL, and Python. Experienced in developing an e-commerce website and working with databases, development tools, and technical systems. Strong problem-solving abilities with an interest in web development, software engineering, and AI technology.

Professional Experience

2024

Masinde Muliro University of Science and Technology (MMUST)

ICT / Networking Intern

- Assisted in designing, developing, and testing web-based applications.
- Wrote and maintained code using Python, PHP, JavaScript, HTML, and CSS.
- Collaborated with developers and other team members throughout the software development lifecycle.
- Assisted with software and hardware-related technical tasks.
- Developed practical problem-solving and troubleshooting skills.

Education

2020 – 2025

Bachelor of Science in Software Engineering

University of Eastern Africa, Baraton

Graduated: 2025 Relevant areas include:

- Software Engineering.
- Programming
- Computer Networks.

2016 – 2019

Kenya Certificate of Secondary Education

Kimili Boys High School.

B+

2015

Kenya Certificate of Primary Education.

Isanjiro Primary School.

359 Marks

Technical Skills

Programming

- Python, JavaScript, PHP

Frameworks/Tools

- Django, Git, GitHub, VS Code, XAMPP

Technical Support

- Hardware Repair, Software Installation, System Troubleshooting

Web Development

- HTML5, CSS3, JavaScript, Responsive Web Design

Software Development

- Web Application Development
- Software & Systems Development
- Backend & API Development
- Database Development & Management

Other

- Machine Learning Model Development

Databases

- MySQL

Networking

- Network Configuration, Troubleshooting, Internet Connectivity

Certifications & Training

Legacy Responsive Web Design.

Additional online training in software development and web technologies.

Additional Experience

- Experience working with databases, including data organization, queries, and basic database management.
- Experience in developing and testing web-based applications.
- Great experience in integrating frontend interfaces with backend systems and databases.
- Experience working with and training AI models.
- Comfortable working independently in remote environments and onsite.
- Strong attention to detail and ability to identify errors and inconsistencies.
- Experience following detailed task instructions and meeting submission deadlines.

Projects

Switor Fashion — E-Commerce Web Application

Web Development Project

- Designed and developed an e-commerce website for a fashion business.
- Implemented user registration and account functionality.
- Developed shopping cart functionality and database integration.
- Worked with PHP, MySQL, HTML, CSS, and JavaScript.
- Designed responsive interfaces for improved usability across devices.
- Used XAMPP and VS Code during development and testing.

Professional Strengths

- Problem solving
- Fast learner
- Results-Oriented
- Communication
- Time management
- Attention to detail
- Team collaboration
- Technical troubleshooting
- Adaptability
